

Bristol, go solar, and help yourself and your community

For the second time in two years, the Town of Bristol has been selected to participate in the Solarize Rhode Island Program. The program lasts through March of 2018.

The special partnership program to stimulate small-scale (residential) solar (Photovoltaic) (PV) electricity, utilizing a special discounted tiered pricing structure, creates large savings for (Bristol) residents who sign contracts.

The more Bristol residents who sign up, the greater the savings (discounts) for everyone. Bristol residents can sign up at: www.SolarizeRI.com/Bristol. Bristol has partnered with SunWatt Solar for this initiative.

As the public ambassador for the previous successful Solarize Bristol campaign back in 2016, I am very happy to recommend it once again and encourage residents to explore the opportunity. This is our chance, Bristol, to once again, "Go Green!"
